NPU D
DATA PROFILE

Atlanta Regional Commission

The Atlanta Regional Commission, in partnership with Neighborhood Nexus, is growing a data-informed decision-making culture across Georgia's social impact sector. Naturally, it all starts with data. This profile presents data on demographics, socioeconomics, commuting, and a host of other topics. To put the data in context, we present information on how NPU D has changed over time and also how it compares to Atlanta citywide. This data profile is just one example how we advance our shared mission of democratizing data. For more data resources please visit our website, https://atlantaregional.org/resources/, and also www.neighborhoodnexus.org. About Neighborhood Planning Units:

The Neighborhood Planning Unit system has its origins in the 1974 Citizen Involvement Ordinance, which created these bodies "for engaging in comprehensive planning matters affecting the livability of neighborhoods." Atlanta is divided into 25 NPUs, each of which is comprised of a set of contiguous neighborhoods. Each NPU holds monthly meetings at which residents have the opportunity to provide input on matter such as variances, zoning issues, and long-term planning.
