Mission Statement

The City Court of Atlanta's mission is to handle the disposition or adjudication of all traffic violations issued in the City of Atlanta. Our goal is to provide a courteous and impartial atmosphere for both the prosecution and defense, and to insure that all defendants are informed of their legal rights.

Project Description

The new City Court building is now to be used for the combined operations of Municipal & Traffic Courts. The building requires certain modifications to accommodate both functions.
 1) Build out 2 new court rooms and revise First Appearance Courtroom to accommodate high volume of incarcerated defendants.
 2) Revise central holding area to handle and pre-court holding areas to accommodate Municipal Court along with Traffic Court detainees.
 3) Construct enclosed passage way for transport of consolidated court detainees between Corrections Facility to central holding area in new court building at 150 Garnett St.

Programmed 8			Service Type Roadway Operational Upgrades 5	Analysis Exempt from Air Quality Analysis (40 CFR 93)			

Year	Fund Type		Federal		State		Local		Bonds		Total
	2006	2006	2006	2006	2006	2006	2006	2006	2006		
ROW		State Bonds	\$0,000	\$0,000	\$1,066,750	\$4,267,000					\$5,333,750
CST		State Bonds	\$0,000	\$0,000	\$1,951,150	\$7,804,600					\$9,755,750
			\$0,000	\$0,000	\$3,017,900	\$12,071,600					\$15,089,500

- 1 ARC project number.** The first two letters represent the county in which the project is located, with a few exceptions. Projects within the City of Atlanta are identified separately with an “AT” prefix. MARTA projects have an “M” prefix, but projects sponsored by other transit operators (such as CCT) are included within the appropriate county’s listing (Cobb County “CO” projects in the case of CCT). Projects of a regional nature or which cross multiple counties use an “AR” designation. The numbers after the prefix have no particular significance. Some projects have a suffix which indicate that this is one phase of a multi-phased project.
- 2 GDOT project identification (PI) number.** This is typically a seven or eight digit number used as a unique project identifier by GDOT. Long range projects typically do not have a PI number assigned yet.
- 3 4 Project short title description.** Projects which cannot be mapped (such as regionwide programs) will not have limits shown in Box 4.
- 5 Service type.** General description of the type of project.
- 6 Jurisdiction.** Physical location of the project. Generally, this information is provided at the county level, but “City of Atlanta”, “Multi-County” and “Regional” are also acceptable values.
- 7 Sponsor.** Agency responsible for implementing the project and providing any matching funds. To directly contract for federal funds, the sponsor must be a qualified local, regional or state government.
- 8 Status.** “Programmed” indicates that one or more phase is scheduled to be undertaken during the years covered by the TIP (2006-2011). “Long Range” indicates that all phases are not scheduled until 2012 or later. These are the only two statuses which comprise the adopted and conforming TIP and RTP project list.

A more complete description of the scope for each project is provided on individual fact sheets.

SAMPLE PROJECT – Explanation of “conformity” fields

AT-215A	SR 141 (PEACHTREE ROAD) MULTIMODAL CORRIDOR ENHANCEMENTS		Jurisdiction	City of Atlanta	Existing	6	Planned	6	Length (mi.)	1	Network Year	2010
0004689	FROM MAPLE DRIVE TO SR 400 OVERPASS [SEE ALSO AT-215B-C]		Sponsor	GRTA								
Programmed			Service Type	Roadway Operational Upgrades	Analysis	Exempt from Air Quality Analysis (40 CFR 93)						
											Open Year	2009

Year	Fund Type		Federal		State		Local		Bonds		Total
	ROW	CST	State Bonds	State Bonds							
2006			\$0,000	\$0,000	\$0,000	\$0,000	\$1,066,750	\$4,267,000	\$5,333,750		
2006			\$0,000	\$0,000	\$0,000	\$0,000	\$1,951,150	\$7,804,600	\$9,755,750		
			\$0,000	\$0,000	\$0,000	\$0,000	\$3,017,900	\$12,071,600	\$15,089,500		

- 9 **Conformity analysis.** Indicates whether or not the project was included in the regional travel demand model and air quality conformity analysis. Most types of “minor” projects, such as safety improvements, bicycle lanes, sidewalks and regional programs, are not modeled.
- 10 **Existing lanes.** For roadway capacity projects, the number of existing travel lanes. This information is also typically included for operational improvements. For other types of projects, this field usually shows “N/A”.
- 11 **Planned lanes.** For roadway capacity projects, the number of planned travel lanes following construction. This information is also typically included for operational improvements and will be the same as existing lanes. For other types of projects, this field usually shows “N/A”.
- 12 **Length.** The length of the construction limits of the project. For many types of projects, such as short bridges, intersection upgrades and regional programs, this field will show “N/A”.
- 13 **Open year.** Year the project is planned to be complete and/or open to traffic.
- 14 **Network year.** Indicates the “group” of projects into which this particular project was included for modeling purposes. Generally, the network years are established in five-year increments. For projects which were not modeled, this information is not relevant.

Additional information on the air quality conformity determination process can be found in “Volume III – Conformity Determination Report” of the Mobility 2030 documentation set.

SAMPLE PROJECT – Explanation of “funding” fields

AT-215A	SR 141 (PEACHTREE ROAD) MULTIMODAL CORRIDOR ENHANCEMENTS		Jurisdiction City of Atlanta	Existing 6	Planned 6	Length (mi.) 1	Network Year 2010
0004689	FROM MAPLE DRIVE TO SR 400 OVERPASS [SEE ALSO AT-215B-C]		Sponsor GRTA				
Programmed			Service Type Roadway Operational Upgrades				
			Analysis Exempt from Air Quality Analysis (40 CFR 93)				

	Year	Fund Type		Bonds			Total
		16	17	Federal	State	Local	
ROW	2006		State Bonds	\$0,000	\$0,000	\$1,066,750	\$4,267,000
CST	2006		State Bonds	\$0,000	\$0,000	\$1,951,150	\$7,804,600
				\$0,000	\$0,000	\$3,017,900	\$12,071,600
							\$15,089,500

- 15 **Project phase.** PE is preliminary engineering, design and/or study. ROW is right-of-way acquisition. CST is construction and/or implementation. There may be multiple years of a single phase.
- 16 **Funding year.** If funding is programmed in the TIP, a specific fiscal year is shown. If funds were committed in previous years (i.e., 2005 or earlier), this field shows “AUTH”, which means “Authorized”. If funding is in the long range period of the plan, it will show either ‘LR 2012-2020’ or ‘LR 2021-2030’. The state of Georgia’s fiscal year begins on July 1 (meaning that July 1, 2006 is the first day of FY 2007).
- 17 **Fund type.** The funding source for the phase. A project which is financed 100% by a local or state sponsor is identified as “LOCAL”, “GDOT”, “State Bonds” or other as appropriate. If federal funds are used for any portion, the specific funding program is shown. Refer to the TIP for more information on the various funding sources available for transportation projects.
- 18 **Funding obligations.** Includes federal, state and local obligations. The three left columns represent “pay as you go” funding, while the “Bonds” column represents debt which will be accrued beginning in a particular year and repaid through some combination of funds from the other three sources.

The TIP document provides much more information on how transportation projects are funded.
