Detailed Description and Justification

This project provides Transportation Demand Management (TDM) support to employers through employer service organizations like TMAs. It also provides funding for programs that encourage commuters to choose a travel mode other than driving alone. The goals of this project are to increase the number and depth of voluntary commute options programs offered by employers (public and private) throughout the defined non-attainment area, decrease the number and length of daily vehicle trips being generated by single occupant vehicles, and will result in a reduction in traffic congestion and improvement in air quality.

Phase Status & Funding Information		Status	FISCAL YEAR	TOTAL PHASE COST	BREAKDOWN OF TOTAL PHASE COST BY FUNDING SOURCE			
					FEDERAL	STATE	BONDS	LOCAL/PRIVATE
PE	Congestion Mitigation & Air Quality Improvement (CMAQ)		2016	\$4,000,000	\$3,200,000	\$0,000	\$0,000	\$800,000
				\$4,000,000	\$3,200,000	\$0,000	\$0,000	\$800,000

SCP: Scoping PE: Preliminary engineering / engineering / design / planning PE-OV: GDOT oversight services for engineering ROW: Right-of-way Acquisition
 UTL: Utility relocation CST: Construction / Implementation ALL: Total estimated cost, inclusive of all phases
