Detailed Description and Justification

The Recreational Trails Program (RTP) provides funds to develop and maintain recreational trails and trail-related facilities for nonmotorized and motorized recreational trail uses. Examples of trail uses include hiking, bicycling, inline skating, equestrian use, cross-country skiing, snowmobiling, off-highway motorcycling, all-terrain vehicle riding, four-wheel driving, or using other off-highway motorized vehicles. Each State administers its own program, usually through a State resource or park agency, which develops procedures to solicit and select projects. States must use 30 percent of their funds for motorized trail uses, 30 percent for nonmotorized trail uses, and 40 percent for diverse trail uses.
