Detailed Description and Justification

The Highway Emergency Response Operators (HEROs) are the key component of the Georgia Department of Transportation's Incident Management program. HERO trucks respond quickly to incidents and clear the roads so that the normal traffic flow can be restored. The goals of the HERO program are to minimize major disruption of freeway traffic flow at incident locations, remove factors that disrupt traffic flow, relieve congestion at incident locations, and reduce response times. Duties include patrolling Atlanta freeways seven days a week, providing support to law enforcement and other emergency agencies, clearing stalled vehicles from the travel lanes and helping stranded motorists with minor mechanical problems.
