## Detailed Description and Justification

The BeltLine, a 22-mile loop of historic railroad that encircles downtown and midtown, is a unique opportunity to increase greenspace, improve transit, connect neighborhoods and foster livable communities. The BeltLine will connect 45 in-town neighborhoods with parks, transit and trails for commuters, bicyclists and pedestrians. The line will spur economic development and enhance mobility. Funding associated with this line will be used to implement a light rail transit service along the southeastern quadrant of the corridor, which may include a connection to the East Corridor High Capacity Rail Service. A connection to MARTA's Inman Park/Reynoldstown Station to provide for transfers to MARTA's Blue and Green Lines may be included in this project.
