## Detailed Description and Justification

A "fixed guideway" refers to any transit service that uses exclusive or controlled rights-of-way or rails, entirely or in part. The term includes heavy rail, commuter rail, light rail, monorail, trolleybus, aerial tramway, inclined plane, cable car, automated guideway transit, ferryboats, that portion of motor bus service operated on exclusive or controlled rights-of-way, and high-occupancy-vehicle (HOV) lanes. Eligible purposes are capital projects to modernize or improve existing fixed guideway systems. Funds are allocated by a statutory formula to urbanized areas with fixed guideway systems that have been in operation for at least seven years. For a breakdown of how these funds are used in the region, refer to the Transit Program Appendix of the TIP.
