Detailed Description and Justification

The purpose of the New Freedom Program is to provide improved public transportation services and alternatives to public transportation for people with disabilities beyond those required by the Americans with Disabilities Act of 1990 (ADA). The program will provide additional tools to overcome barriers facing Americans with disabilities who want to participate fully in society. Funds are formula apportioned based on the population of persons with disabilities. On a national basis, sixty percent of the funds go to designated recipients in urbanized areas over 200,000 in population. MARTA, in cooperation with ARC, is the proposed designated recipient for the New Freedom Program for the Atlanta urbanized area. New Freedom program funds are available for capital and operating expenses that support new public transportation services beyond those required by the ADA and new public transportation alternatives beyond those required by the ADA designed to assist individuals with disabilities with accessing transportation services, including transportation to and from jobs and employment support services.
