#### Detailed Description and Justification

This project replaces two spans of the Courtland Street Bridge over CSX RR. The two spans are immediately north of the recently replaced span over MARTA. The four existing 11' wide one-way southbound travel lanes along with 7' wide sidewalks in each direction will be replaced. The span lengths will be increased to allow for a third RR track under to be used as Multi-Modal train traffic. The bridge and roadway will be closed during construction.
