Detailed Description and Justification

This project involves constructing/installing recommendations identified in the recently completed Roadway Safety Audit (RSA) along SR 154 (Memorial Drive) conducted by GDOT, in coordination with the City of Atlanta and other stakeholders. The corridor is served by MARTA bus route 107, one of the busiest in the system, as well as routes 4, 15, 21, 24, 34 and 86. Types of improvements which may be made with available funding include signage upgrades, improved pavement markings, midblock pedestrian crossings, ADA ramps, traffic signal upgrades, resurfacing, and updates to the reversible lane configuration. The project is being funded under the Last Mile Connectivity Program, a regional program defined in PLAN 2040 to improve pedestrian and bicyclist mobility, accessibility and safety along transit corridors, within employment and commercial centers, and in the vicinity of other major origins and destinations such as schools. Memorial Drive is designated as a Level 1 Regional Thoroughfare and an ASTRoMaP Connector (element of regional truck route network). This project is also located entirely within Equitable Target Areas.
