Detailed Description and Justification

This project will construct sidewalks along SR 154 (Memorial Drive) from East Lake Boulevard to SR 155 (Candler Road). The proposed improvements are part of a larger network of existing, programmed, and planned sidewalks that aim to improve pedestrian safety and mobility and provide alternative modes of transportation in the region. The need exists to provide a continuous sidewalk along the Memorial Drive corridor. Sidewalks will be added in areas currently without them and any existing sidewalks that have substandard widths or in poor condition would be replaced. Wheelchair ramps at driveways and intersections will be added, ramps will be ADA compliant. The proposed typical section will be an urban shoulder, including a 5-foot sidewalk with a 2-foot stamped concrete buffer. It is expected that the majority of the existing curb will be replaced. Retaining walls will also be used at a number of locations along the project length to minimize property impacts.
