## Detailed Description and Justification

This project is a bridge replacement on Bells Ferry Road at Little River proposing to replace the existing two-lane bridge with one that will be able to accommodate a four-lane bridge with a 20 foot wide raised median. This project also proposes to construct approaches to the bridge to provide two 12 foot wide travel lanes in each direction, a 20 foot wide raised median, urban type shoulders with curb and gutter and 5 foot wide concrete sidewalks on both sides of the roadway.
