Network Year

2030

Corridor Length

5.8 miles

Detailed Description and Justification

This project will involve widening SR 920/Jonesboro Road. from SR 54 to SR 3/US 19/41 from 2 to 4 lanes. The added capacity will relieve bottlenecks and congestion as well as improve traffic flow and safety in this corridor. The Metro Arterial Connector (MAC) is a network of state highways approximately 180 miles in length encircling the Atlanta region. Roadways comprising the MAC (primarily SR 20 and SR 92) are proposed to have a minimum of four travel lanes along its entire length. At least 30 capacity projects are already planned along the MAC over the timeframe of the RTP. A study will be conducted to determine how these individual projects can be engineered and constructed in a holistic and logical manner to maximize the mobility, safety, accessibility and growth management benefits which would best serve multimodal needs (auto, truck, transit, bicycling, walking) and include land use policies, access management regulations, and ITS components to ensure network uniformity.

Phase Status & Funding Information		Status	FISCAL YEAR	TOTAL PHASE COST	BREAKDOWN OF TOTAL PHASE COST BY FUNDING SOURCE			
					FEDERAL	STATE	BONDS	LOCAL/PRIVATE
PE	STP - Statewide Flexible (GDOT)	AUTH	2006	\$6,000,000	\$2,400,000	\$3,000,000	\$0,000	\$600,000
