

Short Title

SR 5 (ATLANTA STREET) INTERSECTION
IMPROVEMENTS AT SR 120 (SOUTH MARIETTA
PARKWAY)

GDOT Project No.

0012606

Federal ID No.

N/A

Status

Programmed

Service Type

Roadway / Operations & Safety

Sponsor

City of Marietta

Jurisdiction

Cobb County

Analysis Level

Exempt from Air Quality Analysis (40 CFR 93)

Existing Thru Lane

N/A

Planned Thru Lane

N/A

Detailed Description and Justification

This project includes pedestrian mobility and safety improvements, improved vehicular movements, mast arm signals and improved access to existing transit facilities. This project would complement the improvements being made at the Waverly Way and Atlanta Street intersection that will be constructed as part of the 2005 SPLOST. There are currently matching funds for the project in the 2011 SPLOST. The project was identified in the 2011 SPLOST and the City of Marietta Transportation Improvement Plan based on the frequency of accidents (in which the top ten intersections were prioritized). It will also be included in an update to the County Transportation Plan which was recently initiated. The project is being funded under the Roadway Operations and Safety Program, a regional program defined in PLAN 2040 to make smaller-scale improvements along existing roadways which are the most critical for cross-jurisdictional travel. With the exception of certain systemwide programs with broad benefits across a defined geographic area, eligibility under this program is limited to facilities on the Regional Strategic Transportation System, with additional priority given to those also identified as a Regional Thoroughfare. SR 5 is designated as a Level 2 Regional Thoroughfare, while SR 120 is a Level 1 Regional Thoroughfare to the north of the intersection and a Level 3 Regional Thoroughfare to the south.

Network Year

2020

Corridor Length

N/A miles

Phase Status & Funding Information		Status	FISCAL YEAR	TOTAL PHASE COST	BREAKDOWN OF TOTAL PHASE COST BY FUNDING SOURCE
