Detailed Description and Justification

This project consists of adding bicycle lanes and completing the sidewalk network along Chamblee Dunwoody Road. This project is identified in the City of Dunwoody's adopted Comprehensive Transportation Plan which designates Chamblee Dunwoody Road as the primary north/south bicycle corridor through the City. The project is also consistent with the City's Complete Street Policy. In conjunction with other planned projects, this project will connect residential areas with commercial nodes and bus service serving parts of Chamblee Dunwoody Road. This facility is also on the Regional Strategic Transportation System, which is a network of roadways designated as most critical for cross-regional travel. The project is being funded under the Last Mile Connectivity Program, a regional program defined in PLAN 2040 to improve pedestrian and bicyclist mobility, accessibility and safety along transit corridors, within employment and commercial centers, and in the vicinity of other major origins and destinations such as schools.
