Detailed Description and Justification

This project consists of the design of a bicycle/pedestrian trail from Cochran Mill Park following the Little Bear Creek corridor approximately 2.2 miles, then shifting southward towards Phillips Road approximately 0.5 miles, ending at an existing gravel path just north of Phillips Road. The typical section is 10' wide concrete with 4' wide graded shoulders. A bridge will be required to cross a tributary to Little Bear Creek approximately 0.25 miles south of the creek. Funding shown for this line item is supplemental to an existing Transportation Enhancement project.
