Detailed Description and Justification

This is a sign maintenance program to meet the new retroreflectivity specifications in the Manual on Uniform Traffic Control Devices. The program will replace most regulatory, warning, and guide signs within East Point. The project is being funded under the Roadway Operations and Safety Program, a regional program defined in PLAN 2040 to make smaller-scale improvements along existing roadways which are the most critical for cross-jurisdictional travel. With the exception of certain systemwide programs with broad benefits across a defined geographic area, eligibility under this program is limited to facilities on the Regional Strategic Transportation System, with additional priority given to those also identified as a Regional Thoroughfare. First priority for upgraded signage will be along Regional Thoroughfares and RSTS facilities within the City, with second priority given to other arterial and collector routes. Funds will not be used on local streets or for neighborhood "topper" signs or other decorative signage.

| Phase Status & Funding Information | Status | FISCAL YEAR | TOTAL PHASE COST | BREAKDOWN OF TOTAL PHASE COST BY FUNDING SOURCE | | | |
|------------------------------------|--------|-------------|------------------|---|---------|---------|---------------|
