Detailed Description and Justification

This project is located along the Forsyth and Hall County border and will construct a new two lane bridge over the Chattahoochee River (Lake Lanier). The existing truss bridge that currently exists at this location will be replaced and is considered structurally deficient. The project will begin at a point approximately 0.41 miles west of the Chattahoochee River and extend to appoint approximately 0.38 miles east of the Chattahoochee River. The proposed bridge will consist of two 12-foot lanes and 10-foot shoulders. The shoulder will include a 4-foot paved shoulder.
