## Detailed Description and Justification

The project will construct a minimum six-foot wide concrete sidewalk along Buford Highway from North Berkeley Lake Road to South Berkeley Lake Road. The total distance of sidewalk to be constructed is approximately 5600 feet. This highly-traveled pedestrian path will serve a transit-dependent population by linking area housing and businesses and Gwinnett Transit System local bus route #30. Route #30 provides circulation in the Duluth, Norcross and Lilburn area and connects the Gwinnett Place Mall area, the Indian Trail/I-85 Park & Ride lot, and the Technology Park employment center. Multiple marked bus stops are located along this segment of US 23/SR 13 (Buford Highway). This project was requested by a citizen and was designated as an unfunded need by the 2009 SPLOST Project Selection Committee.
