Network Year

2020

Corridor Length

N/A miles

Detailed Description and Justification

This project was identified as a priority in the county's Joint Comprehensive Transportation Plan and is currently listed in the Henry County SPLOST III Program. The intersection improvement will include the realignment and signalization of the intersection of Blackhall and Jodeco Roads in northwestern Henry County. This roadway intersection serves as an alternate to Interstate 75, due to traffic congestion and unforeseen emergencies. This roadway is a congested roadway, serving cross jurisdictional travel and local traffic. Additionally, the project is being funded under the Roadway Operations and Safety Program, a regional program defined in PLAN 2040 to make smaller-scale improvements along existing roadways which are the most critical for cross-jurisdictional travel. With the exception of certain system wide programs with broad benefits across a defined geographic area, eligibility under this program is limited to facilities on the Regional Strategic Transportation System, with additional priority given to those also identified as a Regional Thoroughfare. Jodeco Road is on the RSTS and the future widening of Jodeco Road is listed in the Joint Comprehensive Transportation Plan.

Phase Status & Funding Information		Status	FISCAL YEAR	TOTAL PHASE COST	BREAKDOWN OF TOTAL PHASE COST BY FUNDING SOURCE			
					FEDERAL	STATE	BONDS	LOCAL/PRIVATE
PE	STP - Urban (>200K) (ARC)	AUTH	2013	\$143,000	\$114,400	\$0,000	\$0,000	\$28,600
