Detailed Description and Justification

This facility will replace the temporary park & ride lot and provide a permanent parking solution for transit customers in the Stonecrest Mall area. The facility will be constructed on property purchased by the MARTA. The scope of work for this new facility will contain the following amenities: parking for approximately 550 private vehicles, 7 standard bus bays and 3 articulated bus bays, building for support staff, fare ticket vending machines (BREEZE), and fencing. As the facility is now planned, there is capacity for regional utilization.
