## Detailed Description and Justification

PA-027 is a bridge improvement along SR 92 at the Southern Rail Line in Downtown Hiram. The project is part of PI# 621720, which will provide two, 12-foot lanes in each direction separated by a 20-foot raised median, curb and gutter, 5-foot sidewalks and turn lanes at major intersections. The existing bridges over the Southern Railroad and the Silver Comet Trail will be replaced. The original design load capacities are H-15 and the sufficiency ratings on the structures are 48 and 47.9 respectively. Traffic will be maintained during construction.
