Detailed Description and Justification

The Georgia Veterans Memorial Park combines the architectural and landscape elements including walks, plantings, and water features to form a pedestrian park on the northwest bank of Randy Pointer Lake. The initial phase of the park was started in December 2003 and is complete including a road into the park, and entry archway, plaza, memorial fountain, walkways of engraved pavers, marble seat walls and landscaping. This project funds the design and construction of the next phase called "Warfront".
