

## Short Title

SR 81 AT APALACHEE RIVER

## GDOT Project No.

142296-

## Federal ID No.

BRST-1308(12)

## Status

Programmed

## Service Type

Roadway / Bridge Upgrade

## Sponsor

GDOT

## Jurisdiction

Walton County

## Analysis Level

Exempt from Air Quality Analysis (40 CFR 93)

## Existing Thru Lane

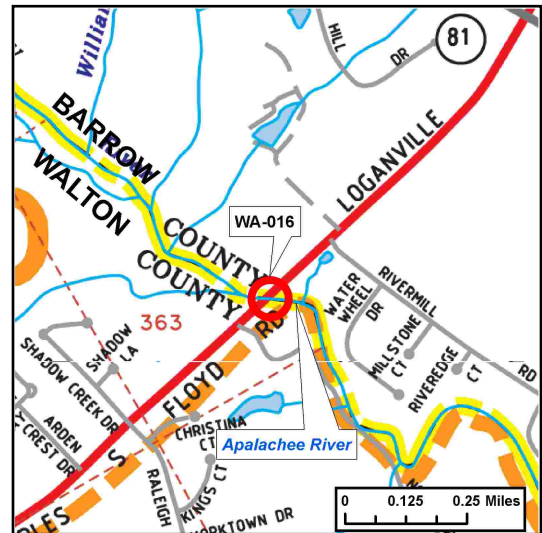

2

## Planned Thru Lane

2

## Detailed Description and Justification

The proposed project will replace the existing two-lane bridge on SR 81 over the Apalachee River in Barrow and Walton Counties with a new two-lane bridge on the site of the existing bridge. The existing bridge measures 165 feet in length and approximately 29.7 feet in deck width and has two 12 foot travel lanes. The new bridge will remain 165 feet long, and will be widened to 44 feet. Additional right-of-way will be required to realign the roadway and bridge approaches. The old bridge will be removed following completion of the replacement bridge.
