Neighborhood Nexus is a community intelligence system providing over five thousand data variables, from the Census and many other sources, at different levels of geography. Bundled state-of-the-art visualization tools help users to understand and analyze these data. Our goal at Neighborhood Nexus is to support a network of community leaders and residents, government and businesses, advocates and service providers with the information, tools and expertise to make data-driven decisions, help meet challenges, leverage assets, and create new opportunities for policy intervention in community problems.

Neighborhood Nexus supports research, analysis, and community engagement. Our Partners use the data and tools to examine past and current socioeconomic and demographic patterns; assess correlations between the equity, health and climate of communities; identify and develop benchmarking metrics; and in so doing make better community decisions.

For more information, please visit www.neighborhoodnexus.org.

| No rent paid                                                                | 145     | 120     | 25     |

[20] Notice: Gross rent includes all units paying rent, regardless of whether the amount paid was based on the fair market rent.

[31] Notice: Median refers to the middle rent amount when all units paying rent are listed in ascending order based on their size. For example, the median for a group of 10 units is the 5th and 6th highest rents, multiplied together and then divided by 2.

* Indicates a change that is statistically significant at the 90% confidence level.
† Indicates a ‘controlled estimate’ for which statistical significance cannot be tested.

Superdistricts are planning units built by the Atlanta Regional Commission from groups of Census tracts to allow consistent comparisons at a sub-county geography over time. Superdistricts are useful for looking at local conditions when counties are too coarse a geography but tracts too fine. Moreover, Superdistrict boundaries remain constant even as census tracts split and cities annex or de-annex territory.
