Annual Listing of Projects with Federal Funding Obligated for Federal Fiscal Year 2016

On December 4th, 2015, President Obama signed into law the Fixing America's Surface Transportation Act (FAST Act) which allocates federal funding for surface transportation programs over fiscal years 2016 through 2020. Per 23 U.S.C. § 134(j)(7)(B) of FAST Act, states and Metropolitan Planning Organizations (such as the Atlanta Regional Commission) must publish annual lists of projects where federal funds were obligated. Specifically, states and MPOs must produce:

*"An annual listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which Federal funds have been obligated in the preceding year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review."*¹

To address this requirement, this report lists all transportation projects in the Metro Atlanta MPO boundary that were obligated during Federal Fiscal Year 2016 (October 1, 2015 - September 30, 2016).

One of the requirements of FAST Act is that government spending on transportation must become more transparent to State and Local Officials, as well as the public. The obligated list of projects must be developed through a cooperative effort with the metropolitan planning organization (MPO), state and public transportation operators responsible for tracking project authorizations and obligations spent during the immediately preceding fiscal year.

Obligation is defined as the Federal government's legal commitment to pay the Federal share of a project's cost. An obligated project is one that has been authorized by the federal agency and funds have been obligated. Projects for which funds have been obligated are not necessarily initiated or completed in the program year, and the amount of the obligation will not necessarily equal the total cost of the project. For FTA projects, obligation occurs when the FTA grant is awarded. For FHWA projects, obligation occurs when a project agreement is executed and the State/grantee requests that the funds be obligated.
