

Short Title VALLEY HILL ROAD BRIDGE REPLACEMENT AT FLINT RIVER

GDOT Project No. 0012603

Federal ID No. N/A

Status Programmed

Service Type Roadway / Bridge Upgrade

Sponsor Clayton County

Jurisdiction Clayton County

Analysis Level Exempt from Air Quality Analysis (40 CFR 93)

Existing Thru Lane **LCI**

Planned Thru Lane **Flex**

Network Year

Corridor Length miles

Detailed Description and Justification

This project involves replacement of an existing bridge with a 44.16 sufficiency rating. The new bridge will include enough width to facilitate a proposed future four lane widening of Valley Hill Road. The need for replacement was identified in the Clayton County Comprehensive Transportation Plan, as well as regular GDOT bridge program reports. The project is being funded under the Roadway Operations and Safety Program, a regional program defined in PLAN 2040 to make smaller-scale improvements along existing roadways which are the most critical for cross-jurisdictional travel. With the exception of certain systemwide programs with broad benefits across a defined geographic area, eligibility under this program is limited to facilities on the Regional Strategic Transportation System, with additional priority given to those also identified as a Regional Thoroughfare. Valley Hill Road is designated as a Level 3 Regional Thoroughfare.
