Detailed Description and Justification

The regional trail vision seeks to develop a connected regional trail network - including providing the opportunity to provide access to major employment centers. PATH400 provides a critical link in the region's trail network, opening the entire north metro area to access the system and the Atlanta Beltline. PATH400 provides critical intermodal connectivity with direct access to Lindbergh, Lenox and Buckhead MARTA stations. The expansion of the PATH400 network is a high regional priority to provide alternative transportation in the GA 400 corridor.
