ATLANTA REGION'S

Transit Programs Of Projects

Last Updated: September 25, 2019

FTA Formula Programs

The Program of Projects (POP) outlines the Federal Transit Administration (FTA) formula funds allocated to the region and shows the projects that local governments apply the funds towards. These FTA formula funds include the Section 5307 Urbanized Area Formula Program, the 5337 State of Good Repair Grants Program and the 5339 Bus and Bus Facilities Program. The POP compliments the Atlanta Region MPO's Transportation Improvement Program (TIP) which lists how all federal transportation funds are programmed. The TIP lists the sub-allocation amounts for the FTA formula funds while the POP goes into detail to include the specific projects that local governments spend these funds on. The POP also includes information on if a local government has spent their funds in a grant, banked the funds for later use, transferred the funds or returned the funds to the region to be reallocated among transit providers that can use the funds.

ARC conducts public involvement activities for the proposed POP in conjunction with the public involvement process required for updating or amending the TIP and as defined by the federally mandated regional planning process 23 Code of Federal Regulations (CFR) Part 450.104. However, ARC public involvement process does not preclude local governments and municipalities from proactively conducting public involvement and/or public outreach as part of their individual planning process.

The table below lists the recipients for each FTA formula fund program in the Atlanta region. A local government must either be a Direct Recipient or partner with one to access any of these funds. For more information on eligible project, local match requirements and other fund requirements, please refer to the fact sheets and circulars below.

FTA Programs	Designated Recipients	Sub-Recipients
